

CHARACTER

DESIGN CHALLENGE

GUIDELINES

The following criteria must be met in order to be considered for the challenge:

- 1 - The Character must be a creature or hero that is recognizable from popular fantasy games, if unsure, please email to inquire.
- 2 - The Character must have dice included in either their body shape, or their attire. There must be at least one of each of the six polyhedral dice visible on the Character (d4, d6, d8, d10, d12, d20).
- 3 - The Character cannot be bloody or gorey. Even though the game is called DIE in the Dungeon, the images in the game are intended to be light hearted and comical.
- 4 - The Character must be named, the punnier the better! A quote from the Character would be pretty cool as well.
- 5 - You must post the image to a social media site, referencing it as a submission for the DIE in the Dungeon Character Design Challenge.
- 6 - You must email your creation to dieinthedungeon@gmail.com, as well as a link to the social post in which you shared your creation.
- 7 - Be aware that any entries that are emailed may be shared on social media by Wesley Woodbury, of FunDaMental Games.
- 8 - The winning entrant will be required to sign a statement agreeing to the use of their design concept to be used by FunDaMental Games for the creation of a new Character.
